## About Us

Founded in 2003, Hypertec BCDR is a premier provider of business continuity and disaster recovery services on a nationwide scale. With its vast array of customizable recovery services including IT infrastructure recovery, colocation, work area recovery, call center recovery and trader recovery together with its current capacity of more than 5,000 workstations available through its state-of-the-art recovery centers, Hypertec BCDR is considered to be one of the largest recovery service providers in North America. The company's services are employed by organizations from small to large in size within the sectors of finance, insurance, aerospace, transport, retail, manufacturing, government and education, to name a few.
